

June 9, 2020

Dear Housewares Charity Foundation Donor,

The spread of the COVID-19 (Coronavirus) is having a devastating effect on our families, friends and colleagues. As the country is focusing on ways to reopen, we are asking for your help in donating to the [Housewares Charity Foundation](https://www.housewarescharity.org)'s fundraising drive to provide face coverings for restaurant workers.

The Housewares Charity Foundation has answered the call time and time again during emergencies to provide critical funding to those in need, and it's important that we support the restaurant industry that has been devastated by the national shutdown.

As thousands of restaurants will be reopening soon, the additional costs of masks and personal protective equipment is of great concern. Our goal is to provide 25,000 masks – please donate by visiting the HCF website below – your donation will go directly to funding this critical need.

[HousewaresCharity.org](https://www.housewarescharity.org)

The Housewares Charity Foundation website will list donations and keep you informed of how your donation directly earmarked to this fund is making a difference in protecting restaurant workers and customers at restaurants across the country.

These are difficult times for all, and we greatly appreciate your generosity.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron Diamond", is enclosed in a thin black rectangular border.
